

Simposio Internacional / *International Symposium:*

*Materiales mesoporosos: de 1991 a 2018*

*Mesoporous materials: from 1991 to 2018*

Madrid, 10 y 11 de abril de 2018 / April 10 and 11, 2018

## **MATTIAS EDEN**

Mattias Eden did Ph.D studies with Malcolm H. Levitt and received his Ph.D degree in Physical Chemistry at Stockholm University (1999). After a postdoctoral stay with Lucio Frydman at the University of Illinois at Chicago (USA, 2000) and the Weizmann Institute of Science (Israel, 2001), he became a faculty member at Stockholm University (2002), where he was promoted to full professor in 2013. His research is focussed on applying solid-state NMR spectroscopy in conjunction with computer modelling to probe structure-property relationships of disordered inorganic materials, particularly silicate-based glasses.
