

Simposio Internacional / *International Symposium:*

Materiales mesoporosos: de 1991 a 2018

Mesoporous materials: from 1991 to 2018

Madrid, 10 y 11 de abril de 2018 / April 10 and 11, 2018

OSAMU TERASAKI

Osamu Terasaki was a faculty member for 35 years in Dept of Physics, Tohoku Univ, Japan (an assistant prof, 1967-, associate prof, 1994- and professor, 2002-). From 2003 he became Head of Structural Chemistry, Stockholm Univ, Sweden. He is an emeritus prof there and currently Director of Centre for High Resolution Electron Microscopy, Prof, ShanghaiTech Univ, China.

He has received the Friendship Award from P.R. China (2003), the Donald W. Breck Award from International Zeolite Association (2007) and Humboldt-Research Award from Alexander von Humboldt Foundation (2008).

His interest lies in methodological development for characterising nanostructured materials through scattering/diffraction/imaging/spectroscopy.
