CV

JORGE BARBAT

Jorge Barbat is a Partner based in Heidrick & Struggles' Madrid office, and is a member of the Global Life Sciences Practice. Jorge specializes in Market Management and R&D positions for leading Biopharmaceutical and Medical Devices and Diagnostic companies.

Prior to joining the Heidrick and Struggles, he spent 3 years as an entrepreneur and as an executive working in Healthcare and Medical Devices in Brazil and Mexico. He co-founded World Health Management; a company specialized in the provision of management services for Life Sciences companies, and worked as Director of Shared Services for an innovative, leading Mexican company, bundling health services and products for private and public hospitals.

Before that, for 12 years, he worked for a top executive search firm, with responsibilities to build the Life Sciences practice and as managing partner of the Spanish business. He has authored and co-authored books and academic papers in leadership and governance.

Started as Healthcare Services Director at age 27 after a scientific and clinical career. Was COO of a 3.000 employees, private, teaching hospital at age 32. Moved to top management consulting for Life Sciences Companies with The MAC Group/Gemini Consulting working at the pan European level.

After his clinical training, he was ranked in the top 2% of Spanish graduates (MIR) and did his specialization in Preventive Medicine and Public Health in Hospital Clinic of Barcelona, at total of 9 years of formal medical education. Jorge worked in hospital administration and in reimbursement optimization for leading HMOs and Hospital Companies in Spain and the US.

Jorge is a licensed physician from Barcelona University, and Medical Lieutenant of the Spanish Army. He earned his M.B.A. from Yale University as a Fulbright Scholar. He speaks English, Spanish and Catalan.
