

International Symposium: **The evolutionary history of the human face**

Madrid, September 13, 2016

**CV**

## **KATERINA HARVATI**

Prof. Harvati is a paleoanthropologist specializing in Neanderthal evolution, modern human origins and the application of 3-D geometric morphometric and virtual anthropology methods to paleoanthropology. Her broader research interests include primate and human evolution; evolutionary theory; evolution of primate and human life-history; the relationship of morphological variability to population history and the environment; and Paleolithic archaeology. Her work has been published in *Nature*, *Science*, the *Proceedings of the National Academy of Sciences*, and many other peer-reviewed international journals. □ She conducts fieldwork in Europe and Africa, (Greece and Tanzania) and currently directs the European Research Starting Grant Project 'Paleoanthropology at the Gates of Europe'. She is the director of the new DFG Centre for Advanced Studies 'Words, Bones, Genes, Tools: Tracking linguistic, cultural and biological trajectories of the human past'. □ In 2010 she was elected Fellow of the American Association for the Advancement of Science and in 2014 she was awarded the prestigious Research Award of the state of Baden-Württemberg.
