CV

JO McENTYRE

Jo McEntyre has been Team Leader for Literature Services at EMBL-EBI since 2009. She is the PI for Europe PMC - the database of abstracts and full-text articles for the life sciences. Prior to joining EMBL-EBI, Jo was a staff scientist at the NCBI, National Library of Medicine, NIH, USA, and was the Editor at Trends in Biochemical Sciences (TiBS), Elsevier. Jo is active in the Force 11 Data Citation Implementation Group, and is interested in text mining as a means to improve the integration of literature with public data resources. She holds a PhD in plant biology from Manchester Metropolitan University.
