ARILD MOE

Arild Moe is a Senior Research Fellow at the Fridtjof Nansen Institute, an independent Norwegian social science research institute specialising in international energy, environmental and resource management politics. He has a cand. polit. degree from the University of Oslo with political science, Russian language and public law. Most of his research has been devoted to Russia, especially the energy sector and energy politics. Moe is engaged in studies of Arctic policy issues as well as Norwegian policy in the High North and is directing a project studying the interests of Asian countries in the Arctic.
