ILONA FRIEDEN

Dr. Frieden is a Professor of Pediatrics and Dermatology, Vice-Chair of Dermatology, and Chief of the Division of Pediatric Dermatology at the University of California, San Francisco. She received her medical degree from the University of California, San Francisco, where she also completed a pediatric internship and residency as well as a dermatology residency.

She has been President of the Society for Pediatric Dermatology, President of the American Board of Dermatology and a member of the Board of Directors of the American Academy of Dermatology. She is currently co-editor-in-chief of the journal, *Pediatric Dermatology*

She has a long-standing interest in hemangiomas. In 1991 she founded the Birthmarks and Vascular Anomalies Center at UCSF, which continues to meet on a monthly basis. In 2001 she helped found the Hemangioma Investigator Group which has studied many aspects of infantile hemangiomas and created an educational website for parents and physicians, hemangiomaeducation.org. She is the former secretary and vice-President of the International Society for the Study of Vascular Anomalies. She is the author of over 250 articles including more than 100 on the topic of hemangiomas, numerous book chapters and is co-editor of the *textbook Neonatal and Infant Dermatology*, now in its 3rd edition.
