

Simposio Internacional: Evolución por cooperación. La obra de Lynn Margulis (1938-2011)

International Symposium: *Evolution by cooperation. The work of Lynn Margulis (1938-2011)*

Madrid, 12 y 13 de noviembre de 2012

Madrid, November 12-13, 2012

Ricardo Amils

Full Profesor of Microbiology at the Universidad Autónoma de Madrid (1994-present). Member of the Centro de Biología Molecular Severo Ochoa (UAM-CSIC) (1977-present). Senior Scientist at the Centro de Astrobiología (INTA-CSIC) (1998-present). Research Associate at the Biochemistry Department of Dartmouth Medical School, New Hampshire (1973-1975). Research Associate at the Biochemistry Department of Columbia University, New York (1975-1977). Dean of the Faculty of Sciences at the Universidad Autónoma de Madrid (1987-1994). Interdisciplinary Scientist of the Mars Express Mission (2002-present). Member of the Solar System Exploration Working Group of the European Space Agency (2011-2013). Group Achievement NASA Award for its participation in the Mars Analog Research and Technology Experiment (2006). Torre de Nerva Award (2007). Member of the Editorial Boards of *International Microbiology*, *Astrobiology*, *Extremophiles*, and *Microbial Cell Factories*. Scientific activities: functional evolution of ribosomes, total reconstitution of ribosomes, biomining, bioremediation, specific metal sequestering, microbial ecology of extreme environments, molecular biology of extremophiles, astrobiology.
