### BIO

#### Miguel Solana

---

Mr. Miguel Solana is a partner at dCapital, an investment and consulting firm focused on fintech and blockchain technology. He has been involved in the structuring of an investment platform for the issuance of digital assets and in the development of several blockchain-based applications.

Previously, Miguel was head of corporate investment banking and new business for Santander Bank in China. Prior to this position, he held different senior roles within Santander's Global Corporate Banking division. Before that, Miguel worked at Telefónica and The World Bank. Miguel is an Industrial Engineer from Universidad Carlos III and holds an MSc in Management of Information Systems and Digital Innovation from the London School of Economics and the Ford Dorsey Master's in International Policy from Stanford University.
