

Avances y retos en investigación en el trasplante de órganos

Advances and Challenges in Organ Transplantation Research

Madrid, 25 de octubre de 2019 / October 25

BIO

Elisabeth Coll Torres

Dr. Elisabeth Coll Torres is a specialist in preventive medicine and public health. She has worked at the National Transplant Organization (ONT) since 2006, where she has recently been appointed Head of the Medical Service. She is also an associate professor of biostatistics at the Faculty of Medicine of Alfonso X el Sabio de Madrid.

She has a large experience in training and research, especially in the development of different programs focused on donation and transplantation activity, such as the design and implementation of Spanish action plan to promote donation in asystole and for the detection of possible donors outside of intensive care units or the management and analysis of the Spanish Pulmonary Transplantation Registry. Throughout her career she has participated as an expert in donation and transplantation in several WHO Global Consultations and in European Commission working groups. She is also the author of numerous articles and book chapters on donation and transplantation.
